---

By the television definition, is a continuous signal, which permits one to perceive all television programs, news, sporting events, etc., on a standard television set. By the television broadcasting, is a service that disseminates images and sounds over a band, typically, radio or cable television network. By the radio broadcasting, is a service that disseminates a signal via electromagnetic waves, especially at radio frequency, allowing all kinds of devices to receive and produce sound. This occurs by an outside source that releases its content to a specific receiver. The word broadcast originally referred to a public performance or presentation. This term has since changed to refer to a mass communication via a particular medium. For example, a radio broadcast was defined in 1926 by the International Radio Regulations and later adopted by the FCC, as "A service that disseminates sound or speech via a radio medium." broadcast, meaning Broadcast, meaning, Broadcast, Broadcasts, Broadcast meaning, Broadcast definition, Broadcasts meaning, Broadcast meaning (Etymology, English Language and Literature).
